

The *Bunbury Geographe Chamber of Commerce and Industry*, together with the *Bunbury Wellington Economic Alliance*, is hosting a project briefing on the Myalup–Wellington Project for BGCCI and BGEA members, and non-members.

Myalup-Wellington Project Briefing

The \$400 million Myalup-Wellington Project will create new opportunities for agricultural productivity and intensity in the Collie and Myalup regions by addressing the rising salinity of Wellington Dam.

With grants totalling \$175 million, this project has strong Federal and State Government support. The project has various component parts - both above and below Wellington Dam - that link to sectors beyond agriculture.

Project proponent Collie Water will explain this multi-component project, and provide an update on progress to date. Project off taker Harvey Water will provide an overview of the potential benefits to agribusiness.

Date and Time

Friday, 31 May 2019

7:15 am – 9:00 am AWST
